## JACKSON CITY ITEMS

### Local Happenings About Amador's County Seat

David Mason of the National hotel, Jackson, and family left Monday morning for Santa Cruz, where they will enjoy about 4 weeks vacation.

Miss Marguerite Michel, sister of Mrs H. S. Tallon is spending a vacation with the latter at her home on N. Main street. Miss Michel resides in San Francisco, and is employed at Hale's store of that city, having full charge of the art department. She will remain about two weeks in Jackson.

Mrs F. V. Wood, wife of Judge Wood, residing on Broadway, Jackson, who has been confined to her home service May 31st, from an attack of heart trouble is rapidly improving.

The livery stable of Taylor and Podesta is receiving a coat of pea green paint. Albert Suerra has the contract.

Stephen Matich, a resident of Jackson, left Wednesday morning for Stockton, where he will consult an ear specialist regarding the affection from which he is at present suffering.

Mrs C. Miles came to Jackson from her home in San Francisco to take charge of the office work for her brother, Burt A. McCoy, who manages the Jackson Real Estate Co on Main street. Mrs Miles is stopping at the Globe hotel.

## PICNIC ENJOYED

### Speeches, Ball Game and Dancing Were Main Features

The Italian Benevolent Society of Amador county celebrated their 20th annual anniversary of the celebration of the Italian Independence, at Fullen's grove, Sunday last.

The celebration started at 8 a. m. by a procession composed of Italian citizens, invited societies, forming at Levagig's hall in Sutter Creek, and headed by Sutter Creek's band marched to the grove. The orators of the day were E. J. Cerasco of San Francisco, and Ernest B. D. Spagnoli of Jackson.

The address of Ernest B. D. Spagnoli, a promising young attorney of Jackson, and at present a candidate for district attorney, was well delivered and received much deserved praise. An outline of the historical cause for which this celebration was held, formed the introduction of his address, and was followed by his praise of the work of the society in charge of the celebration. Continuing, he congratulated the Italian pioneers of Amador county, and finished by urging all classes in America to take up and urge a new National holiday that of October 2, commemorating the discovery of America in 1492 by Christopher Columbus.

Amusements were indulged in such as old men's race, girls' and boys' race, donkey race, etc. The game of ball between Jackson and Sutter Creek,

### Maccabees will Hold Grand Dances

The ladies of the Maccabees of the world will give a grand ball on Saturday 11th, 18, and 25th of June, at the skating rink pavilion. The Sutter Creek band orchestra has been engaged, and a pleasant time will be promised all who attend.

## Health Report.

The county health officer made his usual monthly report for June as follows: 2 cases of measles in Jackson, no contagious diseases are reported.

## Criminal Returns

Report of justice's returns in criminal cases for the month of May are: T H Gartlin, justice of township 2; Ray Ballard, dismissed at request of complaining witness; J M Bailey for forfeiting \$100 bail bond, and W L Rose justice of township 4, Geo S Gosso charge dismissed.

### Judge Fred V. Wood Asked to Preside

Hon. Judge Fred V. Wood has been invited to preside at the trial of two cases in the Lassen county court in which Judge Burrouge is disqualified by reason of his previous acting as attorney for one of the party interested in the case.

Judge Woods is recognized as a man of keen integrity, and this is one of the many manifestations of esteem and appreciation of his fair decisions shown him by the jurists throughout the state.

## START SERVICES

### New Episcopal Rector Delighted with His Prospects

The Episcopal rector, Rev. John E. Shea started his new field of work by holding services at the Episcopal church in Sutter Creek last Sunday morning at 11 a. m.

The clergyman took his text from the 9th chapter of Acts and the 6th verse, "Lord what wilt Thou have me to do."

The words were uttered by Paul, who while on his way to Damascus to bring back christians for persecution, was struck blind on the roadside, and compelled to face the Lord and acknowledge his mistake, telling his hearers of the task Paul had in facing the then known world and preach the gospel of the Christ he had ridiculed, he explained how much easier their task is made at the present time in heralding the gospel and urged them to do so.

Rev. Shea preached an evening sermon at St. Augustine's Episcopal church in Jackson at 8 p. m., to a fair sized audience, using the same text. The new rector says he is very enthusiastic over the prospective field before him, and feels confident of his success in solidly establishing both parishes.

Rev. Shea was joined by his wife last Friday, and are making their headquarters for the present at the National hotel.

### Painting Aids City's Appearance

A force of men employed by H. S. Tallon are at work painting the residence of B. F. Taylor, located on Bright avenue, Jackson.

The structure has a very commanding appearance, and will when newly painted, be a mark of beauty for the city.

A. Dal Porto, Jackson's popular baker is decorating the front of his storeroom on Main street with a new coat of paint. The dark spots of this rustling little city are fast being covered up, and if improvements continue in the future as in the short past old Jackson residents coming back will feel as did old Rip when he woke up.

## TRIP IN COUNTY

### Ledger's Special Correspondent Sends Interesting Letter

On Monday morning, May 16, at 7 o'clock sharp, I boarded the stage for my return to Auburn. The Rev. M. Haddock, formerly of Plymouth, but now of Forest Hill, who has a jewelry store and also repairs watches there, boarded the stage too for Auburn. "Well, Mr Haddock, I said, you're going this morning too. "Yes, he said smiling, when the sheriff sends for a man, he generally has to go." As we pulled out from the hill he turned in his seat and said, "I really was sent for by sheriff McCuley to identify a watch that was found on a man that was murdered, a Chinaman, somewhere close to Iowa Hill. I was shown the watch and I could swear that the watch was the same one I repaired for the Chinaman for the reason, he continued, that I made a small piece of the machinery inside which was a certainty as to identification." Such then is one of the various little traps that very often crack a murderer's neck. At 15 minutes to 12 o'clock, we were in Auburn.

My lay over here was for 4 hours, and I took advantage of the time by going down to west Auburn and beyond. The town appeared to be busy, but I had an idea it was congested somewhat.

## Democratic Paper

S. Voorsanger, representing the San Francisco Sun, as financial agent, with offices in San Francisco, is in Jackson trying to boost the new democratic paper, which he says will publish its first issue this month. The new paper comes out under the managing editorship of Edward Dunn. It would be foolish to predict the future of the new organ, but democracy is certainly fast becoming a distasteful medicine.

## TETANUS VICTIM

### Miner Stricken With Disease Dies in Less Than 24 Hours

Peter Poggio, a native of Italy aged 45 years, died in Jackson Monday from an attack of lockjaw.

Poggio received a pretty bad scalp wound several weeks ago while at work in Zeila mine. Dr. Gall was called and dressed the injuries, informing the miner to have his wound dressed regularly until healed.

The miner, however, returned to work and neglected to have his injuries properly treated, and as a result was taken seriously ill Friday last. On Sunday morning at 2 a. m. Dr. Gall was again summoned, and this time found his patient suffering from tetanus.

The doctor did all in his power to relieve the unfortunate man from his severe pains, but the disease had such a gain on its victim that death was the only relief, and he died Monday, less than 24 hours after the dreadful symptoms developed.

The funeral of the deceased was held Wednesday morning, interment in the Catholic cemetery, Jackson.

## BOYCOTT ROUTE

### Reporter Threatened, by L. F. Stinson of Sutter Creek

Last week we exposed a dirty, petty plot, engineered by "silly Willie" of the Dispatch in connection with entertainments given last week for the benefit of Episcopal church of Jackson, the object of which was to shut the Ledger office out, by prearranged agreement with the show manager—a stranger from outside the county—from participation in any printing and advertising needed in carrying out the entertainment. The plotter was seemingly entirely absorbed in the gratification of his paltry animus against the Ledger. What a fine point he would score thereby in the grab-all game, by shutting off a few dollars from his local contemporaries. He would be in a position to claim a "glorious victory." It never dawned upon his understanding how illiberal his program might seem to any fair minded man, how discordant a note was thereby struck in a worthy benevolent cause; and, above all, what a poor introduction the incident afforded to the newly installed rector of the flock.

We now pass on to consider another incident of like tenor, and of a more flagrant character. The scene is shifted to Sutter Creek, and the occasion is the forthcoming celebration of the Fourth of July in that town. It must be said that this event was planned by the ladies of the Macabees lodge in a broad spirit befitting the anniversary of our national birthday. A committee of these ladies visited the Ledger office recently on the printing business, and obtained a copy of a full-sheet two-color poster, the like of which in size and other respects cannot be duplicated in Amador county outside of the Ledger office. It was what they wanted, and they took the sample away as a

### Sutter Creek Merchant Passes Away

A. J. Show, a prominent merchant for many years, passed away at the residence of his daughter, Mrs Charles Richards, after a few hours' illness caused by heart trouble. A daughter, Mrs Charles Richards, and son, Herbert Show, survive him. The remains will be taken to Petaluma for burial, leaving here Saturday morning.

### Jackson Party Catch Many Fish?

Tabeau dam was visited on Wednesday last by distinguished fishermen, in the persons of Judge Wood, Father Gleason, Superintendent Greenhalgh, and Father Laffan.

A discussion arose in the party as to who was the best fisherman, and as an outcome to it, a fishing contest was waged. Judge Wood is reported to have made the largest supposed catch, and is upheld in his claim by Father Gleason. Father Laffan, however, displayed several 12-inch trout according to his story, and these were claimed to be the prize winners. Supt. Greenhalgh took sides with Father Laffan, and in this muddled condition of honors, the party, after partaking of a sumptuous luncheon prepared by Father Laffan, returned home.

### First Prize Given Away at McGary's

The first set of dishes to be given away at McGary's dry goods store went to Mrs Geo. Vela, who resides on North Main street. Mrs Vela held the card nearest the time that the clock recorded when it stopped, and was presented with the dishes immediately.

Later it was learned that other customers held tickets with time stamped upon them even nearer than that which Mrs Vela held, but as the ticket distinctly says the customer must be present each week at the time which the advertisement calls for, the tardy ticket holders were obliged to be contented to retain their checks, and await next week's results, as a ticket secured this week is good until the contest ends, or for 24 more drawings.

Bear Flag will be observed on the 14th of June and small flags appropriately designed will be on sale at Vela and Piccardo. Sporting star on Main street, Jackson.

All Native Sons are urged particularly to secure a flag, and wear it on the above named day.

LINCOLN AVNDAMENT, President of Native Sons.

## MINE NEWS ALONG LODGE

### Interesting Accounts of Mines Located In Amador Co.

#### Bunker Hill

The clean-up for this month is reported as something over \$20,000, a satisfactory yield, although below the yield of several months past. The mine continues to develop in grand shape. The end of the ore shoot in the 1750 level is not yet in sight, and it is over 30 feet wide in the face of the drift, and all milling rock. Drifting for the ledge at the 1950 level is being pushed ahead with all possible speed, with a considerable distance yet to go to reach the contact with the ledge.

#### South Eureka.

It is rumored that the clean-up for last month from 60 stamps amounted to \$65,000; an exceptionally fine showing for that number of stamps. The additional 20 stamps to the South Eureka mill proper is progressing favorably. When this is in running order it will give a capacity of 60 stamps. They are still running 20 stamps of the Central Eureka mill, which with the 40 stamps of their own mill, gives a capacity of 60 stamps.

#### Argonaut

The large new saw mill recently installed at the Argonaut mine is about completed, and will be started shortly. A complete outfit, consisting of jointers and frames crosscuts and rip saws of the latest make go to make up the new mill.

### Cruelty Case Held Under Consideration

The case against Chas Trebilcock was tried before Judge Wood in the superior court, last Friday, May 3.

Trebilcock was accused of abusing his 2½ year old daughter Nellie, on complaint or charges made by Mrs Bishop.

The defendant came to Jackson recently from Grass Valley with his family, and is accused of severely whipping the infant. He admitted in court that he struck the child in the face with a strap, and seemed to try and satisfy the court with the belief that he could punish the young one as he saw fit. Judge Wood, however, soon convinced the brutal father that such tactics are not sanctioned by intelligent people, and held the infant on the dependency of the court, giving the parents custody to the baby with instructions that if it was again abused, the court would take it from them permanently.

## WIN BALL GAME

### Jackson Team Carries Off \$75 Purse by 25 to 7 Score

The base ball game played at the Italian picnic between Jackson and Sutter Creek last Sunday afternoon, proved to be all in Jackson's favor.

Sutter Creek's team went to pieces in the early part of the game, and her lack of team work together with the fact that her best pitcher Steele had a bad arm and could only pitch a few innings left her at the mercy of Jackson, who played a game that was above criticism. The score at the final inning stood 25 to 7 in Jackson's favor.

Jackson's line-up of Ardito, Fortner, Cromer and Myers, and the snappy game of Love, the new short stop, who just came here from St. Mary's school, was too much for the Sutter boys, who fought hard even to the last.

The team played for a \$75 purse which was put up by the Italian Benevolent Society of Amador county, and was worth witnessing by any lover of baseball.

Ardito cannot be given too much credit for his general ball playing, as a pitcher he is in a class all to himself. The crowd of both sides cheered the veteran pitcher each time he struck a man out.

A game of ball has been arranged to be held next Sunday June 12 at Zeila park that will be a big drawing card. A team from Sacramento named the "Wingards," have been signed with, and come here, it is claimed with an excellent reputation as a ball team. Jackson has no cause to fear defeat if her playing comes anywhere near up to the game she played last Sunday.

### THE NICARAGUA MUDDLE.

There is no doubt considerable truth in the statement purporting to be made by President Madriz of Nicaragua to the effect that the insurrectionary movement which has been in progress in that chronically turbulent Central American republic would be quickly suppressed if the government had only the Nicaragua insurgents to deal with. The statement is an implied complaint against the attitude of the United States in regard to Americans who have enlisted under the banner of the Estrada revolutionists, and who have been captured in armed resistance to the recognized government. A prisoner is now in the hands of Madriz who in the hour of his trouble sets up his claim of being an American citizen, and appeals to the United States for protection in his dilemma. The task assigned him by the insurgents was to lay mines in the neighborhood of Bluefields, and explode them at the right moment upon the approach of the Madriz forces. He was caught red-handed in this business, and in face of a court martial trial, and perhaps a speedy execution, the United States intervenes and asks for a fair and regular trial. The request from this powerful nation has a potent influence with the weak government of Nicaragua. The situation tends to keep alive the insurgent cause, and also to encourage adventurers from this country to foment strife in other weak nations. Americans who mix up in the affairs of foreign countries to the extent of taking sides in actual war, are not entitled to much consideration on the ground of being citizens of the United States. They should be made to assume all the risk pertaining to their self-imposed, hazardous calling. Similar interference by foreigners with the domestic affairs of the United States would not be tolerated for a moment, and any protest from the outside intended to affect the disposition of the case would meet with scant courtesy. The interests of the United States demand stable governments in the republics of Central and South America. It is equally import for our trade with these nations that cordial relations should be maintained with their respective governments. It is evident that the Madriz government is dubious about the friendship of the United States. The fact that enlistment of men for the rebel army, and shipment of war material, has been conducted from American soil, naturally awakens a feeling of resentment on the part of Nicaragua. In the event of the final triumph of the Madriz forces—which is very likely from present indications—this feeling of distrust will remain. More than likely it is shared in to a greater or less degree by most of the Latin republics. It is on a par with the fear of the small-fry republics being gobbled up by the big overshadowing power of the United States. We should to allay this suspicion, and cultivate closer relations with the weaker sisters to the south, but it must be confessed that the policy the administration has been pursuing is not working in that direction.

While republican candidates for some local offices are backward in coming forward, it is safe to say that, with the possible exception of county clerk, a full ticket will be presented to the republicans at the primaries. Township candidates for justice and constable are laggard in announcing themselves in several districts, but over a month yet remains in which to file nomination papers, so there is no ground for uneasiness at present. It is singular, however, that no candidate for state senator in this district, has appeared on either side. There are five counties in the district—El Dorado, Amador, Calaveras, Alpine and Mono—and yet in all this territory neither republican nor democratic aspirant has shown to the front. Caminetti is now holding the office as a democrat, and it is current talk that he is looking for reelection, but no definite move has been made to that end. But not the slightest sign has come from the republicans. And this apathy is all the more significant from the fact that this is essentially a political office, with vital party issues depending upon the complexion of the legislature, such as the United States senatorship, reapportionment of the state, and other matters. Of course there will be opposing candidates for this office. The waiting game that is being played is hard to fathom. It is anybody's and everybody's business to look for candidates under the direct primary law. It is quite an undertaking to circulate nominating petitions in this senatorial district, and this fact has a deterrent effect.

## SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

The New Mineral Waters—Tagging the Birds—Physiological Effect of Magnetism—A Boiler Furnace Without a Chimney—Chile's Earthquakes—Wine Without Alcohol—Metal Infection—Alcohol for Emergency Only—A Giant Tool.

Of late the idea has been growing that the curative effects of mineral waters are due chiefly to radioactivity, which may be lost in bottled natural waters and is not usually present in artificial waters. This theory has led to the establishing of a novel industry at Kreuznach, Germany. The place has mines that produce radium salts, and the product is being used for making radioactive baths and beverages, which are credited with great power of curing rheumatism, gout, tumors, and other maladies. Various sizes of cylindrical brass charging tanks, called "activators," are employed. These contain small amounts of the insoluble radium compounds, and when water introduced at the top has become sufficiently charged with emanation, the liquid is drawn off through a faucet. While the small apparatus for beverages may deal with only one to five quarts of water daily, the larger sizes may yield emanation enough to charge 40 or 50 baths. By this method, radioactivity may be imparted to any kind of mineral water desired, and the degree may be regulated. The product must be kept at rest until wanted, as it loses activity very rapidly on agitation.

Whether birds—especially migratory ones—return to the same nests year after year is a question of much interest to the naturalist. Swallows that summer in England do not winter north of Africa, but an observer at High Halden, Kent, has recorded that one returned on April 12 to a nest it occupied last year. It was recognized by a ring placed on its leg May 8, 1909. To gain a better knowledge of birds' habits, more than 2000 British birds were last year marked with inscribed aluminum rings, and twice as many more will be similarly tagged this year.

The magnetism with which Prof. S. P. Thompson lately showed a perceptible effect on the senses was produced by a powerful alternating current in a nine-inch coil of 32 turns of copper wire. With his head in the coil, the observer in the dark perceived a flickering bluish light, and in broad daylight the flickering persisted.

The chimneyless steam-boiler and furnace now in operation on a Russian torpedo boat, the invention of a Russian naval engineer named Schmidt, disposes of its combustion gases by passing them into the steam of the engine's cylinders. Liquid fuel, easily yielding combustion without smoke, is essential. The combustion gases are cooled from about 3600 degrees to 1800 degrees F. on leaving the heating surfaces of the boiler, and they are then passed into a tube into which a fine spray of cold water is injected under pressure. This cools the gases to between 650 degrees and 900 degrees F., converting the water into superheated steam of the same temperature. The mixture of steam and combustion gases is led to the upper part of the boiler, where it is mingled with the boiler's ordinary supply of steam, and is sent into the cylinders. The boiler, besides requiring no chimney is claimed to have the further advantage of very high efficiency, utilizing 90 and even as high as 97 per cent of the heat of the fuel.

Chile recently joined the countries having a Seismological service, which now include Japan, Italy, Austria, Germany, France, Russia, and the United States. Stations for observing earthquakes have been established from Tacna to the South Shetlands, along a meridian nearly 3,000 miles long, and 550 observers note the shocks at 430 different localities. In six months 740 different earthquakes have been recorded, making Chile a rival of Japan as the most shaken country. A novel instrument at Santiago, the first of its kind, is one by P. Maccioni that is claimed to give warning of approaching earthquakes by its response to electromagnetic waves set up in advance of the shock.

For making non-alcoholic wine having the bouquet of natural wine a special method of distillation has been developed in Germany. Temperature and vacuum are so regulated that the most volatile aromatic constituents are passed without volatilizing the alcohol, and the aromatic vapors are received in an absorption liquid of de-alcoholized wine, grapes must and sugar. In the second stage the heavier aromatic substances distill over with some alcohol and water, the alcohol and water being separated by their quicker condensation. The removing alcohol is then distilled off, and the absorption liquids with their aromatic substances are mixed with the wine residue in the still.

So-called contagious diseases of metals have been given special attention by Prof. Ernest Cohen of Utrecht, who has found the phenomena really curious. Tin seems to be the most susceptible. When this is exposed to a cold below the freezing-point of mercury, it becomes afflicted with an eruption of pustules, losing its shining surface in a dull gray, and on being cut with a saw it falls to powder or breaks up into a bundle of fibers. The disease has extraordinary infective power. A few grains of the powder placed on the surface of a block of sound tin speedily affects the latter, and transforms it in a few days. This "pest of tin" is the dread of museum curators, many medals and other exhibits falling victims to it. Another malady of tin causes the metal to change structure and become crystalline, and this also can be transmitted by contact. It attacks especially soldered joints, affecting brass and lead in addition to tin. Heating the diseased tin to 230 degrees C., or within a degree of its melting point, does not affect its capacity for infection. The suggested explanation is that this is a recrystallization, in which the separate crystalline grains increase instead of being modified. Wrought metal such as tin plate, tinfoil, etc., seems to take the disease more readily than block tin.

In an inquiry by Dr. L. Schuyder of Berne, the conclusions have been reached that alcohol is harmful to mountaineers during a climb, that it may be used as a final stimulus to overcome the last obstacle, and that it may serve as a digestive aid. As a substitute he suggests some substance containing caffeine, such as a powder of 5 grammes each of kola and cocoa with 10 grammes of sugar, to be taken in little water. In this investigation, he addressed certain questions to 1200 members of Alpine clubs, Swiss and foreign, and received answers from 573. Of those replying, 412 carried alcohol while mountaineering. There were but 54 total abstainers, but most of those who carried alcohol would use it only very moderately, and not at all until necessary.

The largest lathe ever made in Germany has a total length of 85 feet, and weighs 385 tons. The maximum distance between centers is 52½ feet, and work can be turned up to a diameter of 17.16 feet. An 80 horse-power motor drives it, variable gearing giving 60 different speeds.

### Pioneer Dies at Ripe Old Age

Death has removed the oldest Amador county pioneer.

Mr Neipps was born in Champagne, France, December 3, 1814, and died at Ranlett, Amador county, May 28, 1910, at the age of 95 years, 6 months and 25 days.

In his younger years he was prominent in politics in his native land, being at one time a representative in the chamber of deputies from his district. Being a strong republican, about the time Louis Napoleon became emperor, he was compelled to leave his native land and all his real and personal property. As he conducted a wagon and plow manufactory his loss was considerable. He then wended his way to the United States thence to the golden west, arriving at Sutter Creek, Amador county, September 10, 1851, where he opened a hotel and store which he conducted for a few years. From there he moved to Mt. Echo and began farming. He took up government land and lived on the property for nearly 40 years. He has been living with his daughter, Mrs L. Veerkamp, for the past 20 years.

Mr Neipps was a good neighbor. His wife preceded him to the grave eighteen years, and also a daughter in France. He leaves one daughter, Mrs Lena Veerkamp, and grandson, Eugene Veerkamp, to mourn his loss.—Echo.

### Mokelumne Hill A Fair Judge?

Local talent from Jackson, Amador county, gave an entertainment in Mokelumne Hill Monday evening last to a large audience. The show consisted of singing and character sketches. While some of it was good, taken as a whole it could not compare with our home talent. After the entertainment there was a social dance for which music was furnished by a Jackson orchestra, which was another feature that was no comparison to our home orchestra. The fact of the matter is we have talent in this place, both in the dramatic, vaudeville and music line, that we have never as yet seen beat by any outside local talent. The Jackson entertainment played to a ninety dollar house, which we consider pretty good during the present hard times.—Citizen.

## DONT HIDE YOUR MONEY

The man who hides his money  
because he assumes to be afraid  
of banks forgets that it was the  
bank that perhaps made the pros-  
perity possible which gave him  
his money making opportunities.  
Without the bank there would be  
no large commercial or business  
enterprises possible, salaries and  
wages would be low, and money  
making impossible. It is the  
bank in the exercise of its func-  
tion in gathering together the  
funds of a community and putting  
them into active use that has  
brought prosperity.

To hide money is to hinder and  
hurt prosperity by restricting the  
circulation of money. Bring your  
money to the bank.

Stanley Crocker of Sacramento came up Saturday in an auto, which conveyed Amador people to the picnic. He made many trips during the day.

"It cured me, or 'It saved the life of my child," are the expressions you hear every day about Chamberlain's colic, cholera and diarrhoea remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's colic, cholera and diarrhoea remedy is that it cures. Sold by all dealers.

## TRIP IN COUNTY

Continued from Page 1

for this business seemed to be overdone. When I lived within a mile and a quarter of it in 1871, there was no town there but what is now known as West Auburn. Since that time it has been built up to the Southern Pacific depot and its suburbs beyond even this. East of the depot a few hundred yards, right upon the very slopes of the mountain that rises from the American river thousands of feet, is a high olive orchard growing upon the mountain side among the rocks, without cultivation or irrigation. I had read many times that an olive tree would grow where an oak would, but I doubted it. Here there was the proof of what I had read. There were hundreds of bearing trees growing among the rock and upon so steep ground that it would worry a goat to have to climb it. Instantly I said to myself, the people of Amador county little dream what their possessions are. Right here in Amador county, every foot of ground could be utilized by raising fruit, grain, hay, vegetables etc. upon the lower land, and the mountains could be turned into olive orchards that would make France and Italy pale into insignificance at its production. This then is no "dream," but is a fact that will some time in the future verify itself. I walked out east of Auburn to look at trees and vineyards that have been planted since I was here last, and are now bearing fruit. As early as 1864 I had been in Auburn when the Central Pacific railroad wasn't hardly thought of. As early as that I had been over the ground from Auburn to Grass Valley, and from Auburn to Newcastle, when hardly a foot of it was thought worthy of taking up. I could have had my choice of almost any of it. I feel then that I am competent to compare that part of the county from Auburn to Sacramento to with that of our own land that at this time really goes begging from two facts, 1st there is no railroad here to give our land a market, the next is easterners coming to California have but little idea that Amador county is upon the map. It is not advertised, and thus the drawback.

At half past 4 o'clock p. m. the train No. 5, as it was called, pulled into the station. The train was a long one and was drawn by two powerful engines. There were many excursionists aboard, some coming for pleasure, others coming to seek a home where a temperate sun shines down both summer and winter on the Sunset land. The train stop was only for a few short minutes, and the bell on the engine began to ring and the voice of the conductor shouted, "All aboard." The train started on with slow oscillating motion as if measuring the distance, then increasing until we went whirling on toward Sacramento City, passing neat cosy farm houses and trees and vines clothed in verdure on both sides of us. As I sat at the window, and looked out upon the thrifty county that in 1867 was the feeding grounds of the jack rabbits and countless numbers of horses and cattle. I said to myself such is the ingenuity of and thrift of labor. Such is evolution that is changing aridity into oasis of thrift and prosperity. Behind all these nice places is the fact of industry

**Children Cry FOR FLETCHER'S CASTORIA**

more than oils for the soil don't compare with that of little Amador that stands at present showing in the cold. This is not balderdash, but fact, for I saw it in its virgin state. I saw it in high state of cultivation. It was labor that made it what it was. It was railroad that gave it a market. It was both that left their imprint in well regulated farms, neat cosy farm houses, and sometimes splendid villas. As the train went whirling on to Sacramento after passing Roseville, grainfields could be seen on both sides of the road. The crops appeared no higher than 12 or 14 inches. We were now passing through a portion of the Haggin Grant that was bought up by speculators for 4 million dollars. This is a colonization scheme that is being offered to prospective land buyers from the east that are fleeing from their rigid cold of winter and the hot sun of summer. One man came to this part, and bought land close to the American river 7 years ago, paying 22 thousand therefor. Only a short time ago he sold the same land for 90 thousand. In conclusion, my agricultural friends of Amador don't underrate your land nor squander your patrimony, for it is far better than you think it is. CHAS S. BELL.

## IONE AND VICINITY

June 9.—There will not be near as much hay made in Ione and Jackson valley this year as there was last. Most of the farmers intend to thrash their grain.

A fire started in the brush on the Miller ranch near Buena Vista Wednesday afternoon. There was quite an exciting time for a few hours before it was under control, but no damage was done.

Mrs. Albert Miner was in Elliot on business Tuesday.

Mr. Chapman of Jackson valley returned Tuesday from a business trip to Stockton.

A merry party of young people from Ione went out to Mule Creek Sunday on a picnic. Everybody had an enjoyable time.

Willie Lucas from Camanche was in this community one day last week, selling loganberries.

Joe Dufrene, who has been quite sick the past two weeks, is able to be around again.

Last Friday Jasper Johnson lost a good team of horses. He was driving home from Jackson, when the horses were suddenly taken ill with acute indigestion. He drove as far as Jack Dufrene's, where they were unable to go any farther, after arriving there they both died within an hour.

### Mrs Neil B. Pratt

#### Called by Death.

Mrs Neil B. Pratt passed away in Sacramento Monday afternoon, June 6th, 1910, after a brief illness. The sudden news of her untimely death came as a shock to her many friends and companions in this community. The decedent was the eldest daughter of Alfred and Christina Pharis, and sister of Miss Amy B. Pharis, and was born and reared in Sutter Creek. The remains arrived here Wednesday evening, funeral services were held this afternoon, Thursday, from the residence of her parents conducted by Amapola parlor No. 80, N. D. G. W., of which the deceased had long been a member. She was also a member of Excelsior Rebekah lodge No. 63, I. O. O. F., which turned out in a body. The Native Sons also attended, and a large gathering of friends followed the remains and laid them away in the tomb with an abiding faith in her restitution to immortality.

#### Take up Desert Land.

A company of Jackson men, consisting of Dr. Endicott, Elmer Boydston, Elmer Gardner, David Mason, Harvey Mason and Gilbert Voorheis, have taken up 650 acre section of desert land, located south of the Imperial valley in southern California. The representative sent to investigate the property, Elmer Boydston and Gilbert Voorheis, report the land within a mile from the main irrigating channel. A proposed town site has been laid out and an electric railroad planned, all of which will adorn the Jackson men's property. The object of taking up the land is to plant and raise all kinds of citrus fruits.

## BOYCOTT ROUTE

Continued from Page 1

guide in the framing of one for their own affair.

In an unfortunate moment, but prompted by the best of motives, they confided the giving out of the printing to L. F. Stinson, of the Amador Record, with instructions to recognize all printing offices in the county in the distribution of work. Now this amiable individual is a man after "silly's" own heart. He exemplifies the truth of the old saw, "birds of a feather," etc. His upper deck seems to be overloaded with hatred, and he splutters his cargo in generous measure over every issue of his sheet. We have paid no attention to his weekly ravings notwithstanding the Ledger man, for some unknown reason, seems to occupy the storm center of his brain. He imagines he is doing a great work by his disordered ramblings, and is alone in that opinion, but as it pleases him and hurts no one else, it were a pity to disturb his pleasant dream.

Personally we have no acquaintance with this man; we know him only by sight; we have never had business dealings with him to the extent of 5c; and have never had to our knowledge even a formal introduction.

How did he carry out instructions regarding the celebration printing? By absolutely ignoring the Ledger. The advertising was placed in every paper in the county, except the oldest, most influential, and widest circulated of the bunch—the Ledger. It was contemplated sending advertising outside the county, thereby emphasizing the intended boycott of the Ledger. And the poster was whittled in size so as to bring it within the capacity of the Dispatch-Record alliance.

The Ledger was non-plussed at the non-recognition treatment, and the committee in Sutter Creek were equally surprised at the non-appearance of any announcement of the celebration in the advertising columns of the Ledger. A representative of this paper went over to Sutter Creek to investigate, and was not long in finding out that the ladies' committee that the full responsibility of this wretchedly concocted plot lay at the door of L. F. Stinson, of the Amador Record. His action was repudiated by them, as contrary to their wishes and against their positive instructions. They expressed their regret at what had been done, and rectified the wrong by ordering the advertisement and other work to this office.

The Ledger reporter, armed with the facts, went to Stinson, and wanted an explanation of this betrayal of confidence. The main facts as herein stated were not disputed, the only explanation being that Perry of the Dispatch was a personal friend of his, while he entertained a feeling of hostility toward the Ledger editor, based on absolute non-acquaintance. Trapped in his own net, and faced with the promise of exposure, he fumed, and fussed, and cursed, abused the Ledger and all pertaining thereto, and threatened the reporter in the event of dragging the matter into the sunlight, and in this lovefest mood the interview closed. We apologize for having to waste so much time on so small a subject.

The Record of this week tries to squirm out of the fix after the ungalant example of Adam of old, to wit: "Two ladies having the celebration in charge called at our office nearly three weeks ago and requested that we send an ad. to the Lone Echo and to one of the Jackson papers, and we sent it to the Dispatch." The same old story of adding insult to injury—"The women beguiled me."

The management of the Jackson baseball team has been conducted along similar stultified lines, and we propose, if this spirit be continued, to bring this question into daylight shortly, which will form another chapter of paltry narrow-mindedness and malice.

### Marvelous Discoveries

mark the wonderful progress of the age. Air fights on heavy machines, telegrams without wires, terrible war inventions to kill men, and that wonder of wonders—Dr. King's New Discovery—to save life when threatened by coughs, colds, grippe, asthma, croup, bronchitis, hemorrhages, hay fever and whooping cough or lung trouble. For all bronchial affections it has no equal. It relieves instantly. It is the surest cure. James M. Black of Ashville, N. C., R. F. No. 4, writes it cured him of an obstinate cough after all other remedies failed. 50c. and \$1.00. A trial bottle free. Guarantee by Spagnoli's drug store.

## Children Cry FOR FLETCHER'S CASTORIA

## For Coughs—Take This

Do you know a remedy for coughs and colds nearly seventy years old? There is one—Ayer's Cherry Pectoral. Once in the family, it stays. It is not a doctor, does not take the place of a doctor. It is a doctor's aid. Made for the treatment of all throat and lung troubles. Ask your own doctor his opinion of it. Follow his advice. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

You cannot recover promptly if your bowels are constipated. Ayer's Pills are gently laxative; act directly on the liver. Sold for nearly sixty years. Ask your doctor all about them.

### Another Jackson Visit

My Dear Mr Editor:—  
Seeing that you publish every line I send you regarding my shopping trips to your busy little city. I will send you more and let your readers know how I succeeded in getting real bargains last week.

#### SCHROEDER'S GROCERY STORE.

My first visit was to Schroeder's grocery store. It is located on Court street, and is as inviting a place as one could wish to enter. Everything so prettily displayed and such an immense stock. Why they have a stock of the standard classed good that would supply a town 5 times the size of Jackson. Mr Schroeder explained that he got such large orders, in order to sell as cheap as the storekeepers located in towns with railroad facilities. Fancy groceries are specialized here, and Mr Schroeder's delivery wagon is kept busy delivering orders all day.

#### AT ELKO CIGAR FACTORY.

I thought I would treat my cousin Jack to a box of cigars, and so I visited the Elko Cigar factory to order them made specially to order. The manager, M. P. Silva, just happened to be in, and I got into a conversation with him, and he told me that he sold over 7300 cigars last month, and expected to make over 8000 this month. He said his business here was only recently started, but the Jackson people are fast learning what a good cigar he is manufacturing, and his private customers are fast growing in numbers.

## PICNIC ENJOYED

Continued from Page 1

however, was the main feature of the day, and was greatly enjoyed. A large dance pavilion was erected on the grounds, and dancing was indulged in throughout the day and night. Sutter Creek's band of 18 pieces furnished the music. Doll baby booths and knife and cane booths were on the grounds. A large merry-go-round delighted the children, and was crowded nearly all the time.

The society reports a good sum was taken in by the committee, and claim they are far ahead of last years affair, both from an entertainment and financial viewpoint.

A number of Indians bitterly wailed, because of their inability to secure liquor on the grounds, and tried their best to induce sheriff Gregory to intercede for them. One big full blooded fellow swearing that his father was an Irishman, while another claimed to be the descendant of a Mexican. They were compelled to be content in watching the whites spend their money, and go home dry.

## FROM OUR EXCHANGES

### News of Interest from Near-by Counties

The announcement was received here of the marriage in San Francisco on Wednesday, June 1st, of Elliot S. McCurdy of Amador City and Miss Emily G. Martin of Angels Camp. The bride is the daughter of F. J. Martin, superintendent of the Utica Company, and the groom is superintendent of the Treasure mine at his home town. Both are well known and popular young people in this place, and their many friends here wish them much happiness in the relations they have assumed.—Angels Record.

William Joy and family, who had their residence at Vallecito destroyed by fire recently, have moved into the Kane residence in the Annex, Mrs. Ed Kane and three daughters having moved to Sutter Creek Thursday.—Angels Record.

The case of Mrs. Gardella vs. the county of Calaveras, known as the Big Bar bridge case, has been set for trial in the superior court here for June 1st. F. J. Solinsky will be here at the trial associated with Mr. Hancock as the attorneys for Mrs. Gardella.—Prospect.

The directors of the Lightner mine of Angels have levied an assessment of five cents a share, to meet current expenses. The mine has been closed down for some time, owing to the collapsing of the shaft, and is also entangled in some litigation. This assessment apparently does not mean a resumption of the work now, but is for contingent expenses.—Prospect.

Dr. Goodman of Sutter Creek, was down to attend Mrs. Herman last Wednesday. He came in his auto, but had a hard trip from Sutter, the road being in an awful state. He said his tires blew out twice on the way; he was compelled to go back by way of lone sixteen miles to get five. It is not much encouragement for the people to ask the supervisor of Sutter district for relief as they get no satisfaction.—Echo.

### TWO ESCAPES FROM IONE.

#### Boy Burglars are Captured In this County—One Attempts Suicide.

The two boys who escaped from the industrial school were captured in this county this week by W. H. White and L. I. Rowland, special officers of the school. One of the boys, George Edwards, was captured Sunday near the Crimea house, about four miles below Chinese camp, and the other one, John LaGrande, was located Monday at the App mine, where he had secured employment. The school officers were assisted in their search by sheriff Sweeney and constable LaFont, who found where the boys were. They were brought to Sonora and put in jail for safe keeping until train time Tuesday morning, when they were taken back to Ione. The boys were in the industrial institution upon a charge of burglary, and their time of service there had about expired when they took advantage of the partial freedom which had been granted them and ran away. They were employed in the school paint shop, and enjoyed the confidence of the officers of the institution to a certain extent, but they will now be compelled to serve their full time again as punishment.

Tuesday morning sheriff Sweeney had a nice breakfast prepared for the boys, and went to the cells to see that it was served. Edwards ate his and was ordered to get ready for the train, but when the sheriff went to get him, he found that he had gone back to bed and was barely gotten ready in time to catch the train. Upon going to serve breakfast to LaGrande, sheriff Sweeney found him hanging on the wall with a rope around his neck which he had fastened to the sill. His body was twitching and he was black in the face and nearly dead. The sheriff quickly cut him down and found him unconscious. The blood showed through the skin on his neck, and there was a red mark around it where the rope touched it. He was restored to consciousness, but was still in a dazed condition at the time he was taken to the train. He would say little as to his reason for attempting suicide other than that he would rather be dead than go back to the reform school. He had a close call, as he would have been strangled had he remained hanging but a few moments longer. LaGrande had taken the blanket from his bed and torn it in strips and made the rope with which he tried to end his life. The boys had been singing but a few minutes before, and seemed to have little care or worry and there was no thought on the part of the sheriff or jail

attendants that LaGrande contemplated self-destruction.

When they were captured the boys were ragged and hungry and plainly showed the hardships they had endured in their attempt to get away from the school. They said they had "mooched" several houses along their way, taking only food, and sleeping in barns and in the bushes. They both seem to be pretty hard cases, and are apparently degenerate.—Sonora Democrat.

### MURDER NEAR AUKUM

#### L. P. Coscia, Found Dead—Skull Crushed

L. P. Coscia, was found dead near his cabin at Mt. Aukum last week, Friday, the 27th instant by Louis Seeley. The body was lying about 80 feet from the cabin, under some walnut trees. It was thought that death had resulted from natural causes, the body being badly decomposed, and the coroner was notified.

Arrangements were made for an inquest to be held by Justice John Kohert, and no foul play was suspected. During the progress of this inquest it developed that a murder had been committed. Sheriff Cook and district attorney Thompson were notified and took the matter up at once. The body was brought to Placerville Saturday, the 28th, and a second coroner's jury viewed the remains and took additional testimony, under acting coroner, Justice F. N. Spencer, on Tuesday last. Dr. W. A. Reckers and Dr. G. H. Runkel made a thorough examination of the dead man, and discovered that the skull had been crushed in, both jaw bones fractured, and his false teeth broken in two by a blow from some heavy implement. A bloody ax handle found near the body was, no doubt, used by the murderer in his work.

Sheriff Cook now has under arrest three suspects, Ira Allen, aged about 19 years—a stepson of Albert C. Hart of Mt. Aukum; Carl Goffinet, about 21 years old, and Frank Odell, about 40 years of age. They are now in jail here, but no formal charge has been made against the two latter. Allen will certainly be charged with the crime within a few hours.

Mr. Coscia was a native of Torino, Italy, about 68 years of age. His passport is dated June, 1874, which would indicate that he came to this county at that time. He was an educated man, having graduated from the University of Berne, Switzerland, and taken a post-graduate course at the University of California. He was an expert civil engineer and spoke several languages fluently. He had been a resident of Aukum neighborhood for twenty years, his cabin located in a lonely spot some distance off the main road, and was known to have contained considerable money, which was probably the incentive for the crime.

Deceased had a deposit certificate No. 87213 for \$3,000 in the German Savings and Loan Society, in San Francisco, and held Spring Valley general mortgage bonds, Nos. 2985 to 2996, inclusive, making a total of twelve bonds of \$1000 each. He also has a safe deposit box, No. 2322, in the Crocker National Bank of San Francisco, contents unknown at present. It will require an order of court to have this opened. He is supposed to have valuable real estate holdings in San Francisco and Oakland.

The murdered man leaves no known relatives in this country, but has a sister, Mrs. Virginia Villotti, of Torino, Italy. Mr. Coscia visited Placerville last about a year ago, as a witness in the Pettus trial, and will be recalled by many of our citizens.

The funeral took place Tuesday, and the remains were interred in the city cemetery. The latest report is that another suspect is being shadowed by the officers, and other arrests will probably follow in the near future.—Mt. Democrat.

### Pointers for Party Candidates

Qualification of Signers of Nomination Papers—Signer must be enrolled on great register of 1910 and registered as affiliated with the same party (Republican or Democrat as the case may be) as the candidate whose nomination paper he signs. He must sign but one paper for each office to be voted for, but may sign one paper for every office to be voted for in his district.

Number of Signatures.—Not less than 3 per cent nor more than 10 per cent of the total vote cast for the elector who received the largest vote of his party at the preceding presidential election. Signatures must be secured in at least one fourth of the election precincts in which the candidate is to be voted for.

Verification Deputies.—Each candidate may designate, for the purpose of soliciting signatures, one or more special verification deputies, who qualify by filing with the County Clerk an affidavit setting forth such selection as a deputy. The same deputy may be designated by a number of candidates for different offices in the same party.

No candidate is permitted to verify signatures to his own nomination papers.

Time of Filing Papers.—Nomination papers must be filed with the County Clerk at least 30 days prior to August 16, the date of the primary election.

Filing Fees.—Candidates for county offices are required to pay a fee of \$10 each to the County Clerk when nomination papers are filed. No fee required from candidates for township offices.

All necessary papers may be had at Ledger Office, at small cost, also full instructions.

### Miner Gets Bad Injury

Joe Ginotti, employed at the Kennedy mine, met with a painful accident while at work last Sunday that came near costing him the loss of an eye. While picking rock several small pieces struck him in the face and cut his eye in several places. Dr. Gall was summoned, and the victim given medical attention. The unfortunate miner resides at the Kennedy boarding house.

### Deafness Can not be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars or any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

### Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

Federal Prisoner Makes His Escape.

Reno, Nev.—William King, a federal prisoner sent from Elko county to await the action of the federal grand jury in Carson, cleverly slipped a pair of handcuffs from his wrists, and escaped at the Reno depot while being taken aboard the Virginia and Truckee train with sixteen other prisoners. His escape was not noticed until the other prisoners were in the car, and then he had disappeared.

King, with three other men, was sent from Elko on a charge of selling liquor to an Indian. In Reno there were thirteen other Federal prisoners awaiting a hearing. They were all handcuffed together yesterday, and were taken to the train by United States marshal Humphries, deputy Rockwell and guard McKabe. While the men were in a large crowd and the officers were endeavoring to get them in the train, King slipped the irons from his wrists and made his escape.

Oakland Now Has a Population of 156,000

Oakland.—According to the school census, completed, the population of Oakland is 156,000. Berkeley, according to the same census, has a population of 38,000 and Alameda a population of 23,380.

The census-blanks brought in of the school children are regarded as being complete. Census experts hold that there are five persons in every community for every figure given above have been computed.

NATURE'S WARNING.

Jackson People Must Recognise And Heed It

Kidney ills come quietly—mysteriously.

But nature always warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlings and sediment, Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes. Doan's have done great work in this locality.

J. J. Brennan, grocer, 1147 S. Center street, Stockton, Cal., says: "I always speak a good word for Doan's Kidney Pills when I have the opportunity, as their worth was proven to me over two years ago. My kidneys and bladder were affected, and I had trouble with the kidney secretions. Doan's Kidney Pills promptly and thoroughly corrected these difficulties and I have since had no trouble to speak of. In view of my experience, I feel justified in saying that Doan's Kidney Pills have no equal in curing kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Big Bunch of Babies Arrive for Adoption.

Kansas City.—Fourteen pretty babies, ranging in age from 18 months to 3 years, arrived at the Union depot from New York. Two nurses were in charge and they had more than they could do to get the babies to the Blossom house, where they were to spend the night. The nurses and depot employes carried the children into the depot, and the procession was followed by many women.

In the depot the little ones has many admirers. The sight of the fourteen fatherless and motherless infants touched the hearts of all who saw them, and the women, who sought the opportunity to fondle the youngsters, were unable to restrain their tears.

J. L. O'Hara of New York city, an agent for the Orphans' Home there, was in charge of the party. Two of the babies were left here. Six will go to Southwestern Kansas, and the others to Central and Western Kansas. An announcement was made in churches of the two Kansas cities that the babies would be here for adoption. Rose Stanish, 608 North Fifth street, Kansas City, Kan., was at the depot, and was given her choice.

"Dead" Man Objects To Being Embalmed.

Deleware, O.—Isaac Thornton, a life long citizen of this city, was pronounced dead by his family and an undertaker was summoned. An hour later all arrangements were made to embalm the body.

After the undertaker had changed the position of Thornton, the man proved very much alive and remarked to the would-be embalmer that it might not be a bad thing to bring him a drink of water. When the undertaker came out of his trance brought on by the sudden words from a supposed dead man, the "corpse" was questioned as to what he meant by returning to life, and he stated that he had never felt in better health in all his days.

A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath smooth, velvety skin, lovely complexion, good health. Try them. 50 cents at Spagnoli's drug store.

Goes Mad in Hunt For Buried Riches.

Cheyenne, Wyo.—During the panic of 1907, Mike Hill, a coal miner, lost confidence in banks and drew out his savings, amounting to nearly \$1000, which he buried on the prairies near here. He was adjudged insane in the county court, and committed to the state asylum.

Hill forgot where he buried his money, and his frantic efforts to locate his "cache," coupled with brooding over his loss, resulted in the flight of his reason.

For a mild easy action of the bowels, a single dose of Doan's Regulents is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.
